

PROLOTEX™ - REGULAR FIT – Men's Gloves

You can wear *REGULAR FIT - Men's* Prolotex™ Gloves during normal daily activities and while you sleep at night.

Designed for people with a normal to wide hand and normal to thick fingers. Our best fitting glove for Men.

Prolotex™ REGULAR FIT - Men's Gloves are our new and improved pattern on our flagship standard glove design.

Essential blood flow is improved, allowing fresh nutrients and oxygen to reach and rejuvenate the afflicted areas of your swollen hands.

Prolotex™ Regular Fit Men's Gloves increases the delivery of fresh oxygen and nutrients by fueling the building blocks that can help restore your hands and reduce the number of vicious attacks by Raynaud's.

Code:	PRO-G01b
Style:	Full Finger
Color:	Black
6 Sizes:	XSmall, Small, Medium, Large, XLarge, XXLarge

Far Infrared Rays are very helpful in reducing inflammation and relieving your pain.

Less hand pain is always good!

I've been meaning to get back to you regarding Prolotex gloves. The gloves have been working very well for me. Within two weeks of wearing the Prolotex gloves, I have noticed significant changes in the blood circulation of my hands. My hands are much warmer on a consistent basis, and do not turn to "ice cold" when touching cold items. These gloves are truly amazing and I cannot believe how quick I have had positive results. I've been searching for a solution to my problem of cold hands, and I've finally found it. Ryan R. S.

We recommend Prolotex™ Raynaud's Gloves to help promote circulation and rejuvenate dormant cells and tissues in your fingers and hands.

Protect yourself from the cold.

Prolotex™ Infrared therapeutic Gloves emit and reflect health promoting far infrared light rays. Prolotex's "Miracle Gloves" decrease joint stiffness, reduce inflammation, relieve muscle spasms, increase blood flow at micro & macro levels, and protect against Raynaud's attacks.
